**Date of birth**: 14/02/1994 **Nationality**: Pakistani

## EDUCATION AND TRAINING

[ 01/09/2015 – 08/11/2019 ]

### Bachelor of Science in Software Engineering

*National University of Modern Languages, Islamabad*

**City**: Islamabad

**Country**: Pakistan

## PROJECTS

[ 2018 – 2019 ]

### Text Message Spam Detector

Developed an Android application using Java and integrated machine learning with TensorFlow for spam message detection. Leveraged NLP techniques for text classification, utilizing TF-IDF for feature extraction. The app provided users with real-time spam management, enhancing data security and user experience.

## WORK EXPERIENCE

[ 01/05/2023 – Current ]

### Frontend Developer

*Claystone Tech*

**City**: Rawalpindi

**Country**: Pakistan

- Lead a dynamic team of frontend developers, overseeing projects, delegating tasks, and ensuring the successful delivery of high-quality web applications.
- Translated Figma design prototypes into functional and visually appealing user interfaces, meticulously implementing design specifications to create seamless and responsive web applications.
- Mentored and coached junior developers within the frontend team, fostering skill development, code quality, and best practices, and contributing to the overall growth and success of the team.
